

Company Profile

electrify
MALDIVES

About Us

Electrify Maldives (Pvt) Ltd (EMPL) represents global entity Cummins Inc. in the Maldives for its full product line of diesel engines, diesel generating sets and related components, genuine Cummins spares, and Fleetguard® filtration products.

EMPL's Head Office and Parts Warehouse is located in Hulhumale'. The company is supported by its team of experienced engineers and Cummins factory trained technicians.

Our Product Range

Cummins generator sets range from 5.7kW to 2680kW.

Cummins Power Generation matches the right generator set, transfer and control technologies to power a client's needs. With pre-integrated onsite power systems, all the components are designed to work together as a whole. Especially when you need generator power 24 hours a day, it is important to pick a product known for its reliability and long life. Cummins Power Generation generators are known to run almost twice the number of hours, i.e. time before overhaul, compared to most of its competitors.

Cummins generators from 5.7kW to 2680kW.

Engineering Solutions

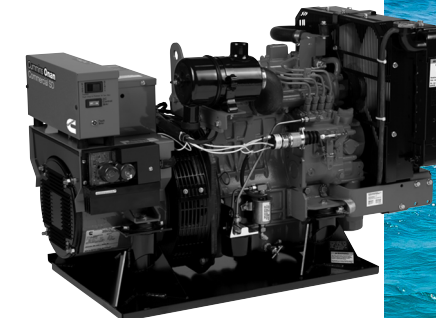

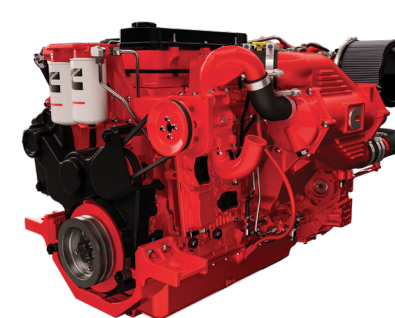

Whatever your scope is, our Engineering & Projects team can add value.

- ▶ Diesel generator installations
- ▶ Noise and Vibration Controlling (Noise attenuator systems, Exhaust mufflers, Wall & Ceiling insulation, Vibration isolators, Sound proof doors)
- ▶ Bulk tank storages, Industrial piping & instrumentation
- ▶ Heat recovery & Remote cooling systems
- ▶ Exhaust system for engine driven equipment
- ▶ Industrial welding works / Steel fabrications
- ▶ Power plant synchronizing control systems
- ▶ Power plant & Generator control system upgrading
- ▶ Automatic power transfer switchgear & Distribution boards
- ▶ Electrical system design and installation (Medium voltage & Low voltage)

Propulsion Engines & Marine Generating Sets

Cummins marine propulsion engines from 120BHP-4200BHP, and marine generating sets & auxiliary power solutions from 74kW -3000kW, are designed specifically for the challenges in commercial marine applications. We also offer Cummins-Onan marine diesel generators from 4kW-99kW. Factory trained Marine Application Engineers are available on-call 24/7.

Cummins certified Marine Application Engineers are available 24/7

Why choose us?

- Customized packages to meet your requirements
- Standard and sound proof generator sets
- Meets global emission standards
- Meets classification society standards

Fleetguard®

Cummins Spare Parts & Fleetguard® Filters

We supply only genuine Cummins spare parts backed by a 1-year Cummins warranty, and genuine Fleetguard® filters which will enhance the performance of your products and time between services. Available ex-stock. Ask us for a genuineness certificate issued by Cummins/Fleetguard®

Cummins Power Command Cloud- Remote Monitoring System™

EMPL offers control over your most crucial power system. Through the Cummins Power Command Cloud you can access real-time information about your power systems wherever you are, whenever you need it.

- ▶ 24/7 monitoring
- ▶ On-the-go access and visibility
- ▶ Data trending
- ▶ Multi-location management
- ▶ Real-time notifications
- ▶ Remote access control

Services

Cummins-certified technicians are available to provide routine services, scheduled maintenance, and emergency repairs. They are equipped with all the required tooling including Cummins special tools, and diagnostic software. Electrify Maldives (Pvt) Ltd is the only entity in Maldives authorized by Cummins to carry out warranty repairs on all Cummins products. All our repairs carry a warranty

Training

Training programs are available in the Maldives, tailor-made to customer requirements, either at EMPL's facility in Hulhumalè, or at customer locations depending on the circumstances. EMPL is also affiliated with a Cummins certified training center in Sri Lanka that has the latest tools and training aids including training engines, simulators, control panels and diagnostic tools.
